### THE "NORMANDY" SERIES

THE "Normandy" Series of shaded light fixtures through its delicate tracery of vine, leaf and flower, reminds one of the sunny fields of Normandy. Rarely has grace of line, beauty of design and refinement of detail in its metal parts, been found in lighting fixtures within the price range that we are presenting these.

The finish is an Old Silver with faint touches of brown in the recesses. The shades have the grace of the Lily, and the soft warm glow of the honey toned glass is brightened up with the sparkle of the clear jeweled terminus and fine clear lines that emphasize the panels.

These fixtures will lend beauty and comfort to any home.

### "WESTWOOD MANOR" SERIES

THE "Westwood Manor" Series is reminiscent of that age old country house, in Wiltshire, England.

Its rugged craftsmanlike appearance recalls the days when men made things with their hands, and enjoyed the product of their toil. The copper snuffers and light holders form an interesting contrast to the body of the fixture in the Toned Old Silver finish so much used in that day.

The whole ensemble is one of refined, dignified beauty combined with utility.
